

I have requested numerous times to be placed on the Do not call list and am still being harassed by this company. Key Financial (727)-734-3498 is what comes up on my caller ID and the last call recieved was 12/12/04 at 7:34 pm, they call every night at that time and the rep on the phone would not listen to my very polite reminder that I requested numerous times to not be called by them and I am being harassed. He kept saying the same thing about the low rates and refused to acknowlege my request to not be called. I try to call the company back at that number to speak to the manager but the call does not go through.
